

Two Best Practices of MITS Science Arts and Commerce College, Jadan (Rajasthan)

MITS Science Arts and Commerce College was established with a vision to provide a transformative education to create leaders and innovators and generate new knowledge for our society. Institutional management & leadership is a compulsory part of every educational institution, As per it, our college has given the best example of good management and leadership qualities by hosting various programs at a large level such as voter awareness contests, educational tours at various places like Machiya Biological Park at Jodhpur, ZEST Functions and also other activities that provide knowledge best quality education & create a holistically learning creative environment for students.

BEST PRACTICE-1

Title of the practice: - **“Holistic Student Centric Practices”**

Our college works toward putting together a harmonious manner & relationship that they may function more effectively in the management of education initiatives. These initiatives play a vital role to create a versatile learning environment within the college. Besides, coordination is necessary to coordinate all factors of management & make an integrated approach or attempt in the programme.

Our college also has a vision of envisioning the growth of the region, based on quality education that not only enhances students for its bright future but also imparts leadership qualities within them, we not only provides proper career guidance but also helps out students with extra-curriculum enhancement and vision of values & prospective career.

MITS Science Arts and Commerce College as an educational institution will immerse participants in a program designed to maximize their

effectiveness in a management role, it could be through students and teachers' maximum participation, improving conditions for teaching and learning, aligning roles and responsibilities, redesigning and enriching the curriculum.

BEST PRACTICE:2

Title of the practice: - **“Commitment to Society”**

Our college launches programs that aimed to provide a platform for higher education leadership in the context of local and regional contemporary challenges. In addition, through exercises involving environmental scans, design thinking, and strategic management, the program aimed to engage participants in identifying and prioritizing some cross-cutting issues that need to be addressed in light of the rapidly changing needs in society. Recently our college has launched a program like a student-peer group discussion program that will help students to be more creative, generate their ideas and their participation another example is social drama or Natak on “Swachh Barat Abhiyan” presented by students to impart a message of cleanliness in our society so through these kinds of activities that generate awareness and leadership skills among students.

This has been provided an overview of the college that examines the nature and purposes of school leadership and its relationships to improvement. It has provided a particular focus on the links between leadership and management of college and classroom processes, in particular examining how leadership can enhance and support better teaching and learning and thus promote better outcomes for students.
